

## LiveJasmin starts 2018 with winning multiple awards

LiveJasmin is looking toward enjoying yet another successful year. 2018 has barely begun, yet LiveJasmin has already walked away with four awards from some of the most prestigious events in the adult industry. At the XBIZ awards in January, LiveJasmin won the distinguished "Camsite of the Year" award. February and March saw the Alba awards, LALEXPO, and the LiveCam Awards, where LiveJasmin won the "Best Platform", "Best Overall Camsite", and "Best European Camsite" awards respectively. That is just the tip of the iceberg however. LiveJasmin's Chief Product Officer - Zsolt Theiss-Balazs - gave us a glimpse into the future when he had this to say: "We are moving forward with numerous new developments that will be truly unique and we hope will shake up the entire market. LiveJasmin has always been a trendsetter in the adult live streaming industry and that's not going to change any time soon."

Growing out of a simple startup company, LiveJasmin took the World Wide Web by storm sometime around 2008-2009 when literally millions of users started visiting the website on a regular basis. Currently over 35 million users and 20 000 models are using the website every single day.

### Many more events with even more announcements to follow

The year is not over yet however, Károly Papp - Cofounder and CEO - detailed the plans for the near future, "We will be attending many of the adult industry shows that are happening this year. First the Bucharest Summit, then XBIZ Miami and finally the AWSummit. The next 3 months will be full of amazing events and we wish to be represented at each of them so we can create closer ties with the entire industry." Moreover, LiveJasmin may be revealing exciting new projects as well. "We like to be very forward and direct, so we pride ourselves on building close professional relationships with all of our partners", explained Papp.
